IC8-B IN CEILING 8" 2-WAY POWERED BY SONIC VORTEX®

Multiple International Patents Awarded
Additional Patents Pending

Our Sonic Vortex® technology generates rich, deep bass and effortless clarity from what most people would call a 'back box', but is not. It is actually a compact, integrated tuned enclosure. This patented technology is a 'twist' on Ported Transmission Line design, that optimizes air movement to produce astonishing sound. The enclosure also keeps sound from bleeding to other rooms while adding 6 to 9dB boost in mid-lower bass.

- 8" Injected Polypropylene Woofer
- 1" Silk Dome Tweeter
- Butyl Rubber Surround
- Pivoting Tweeter
- Speaker Weight: 8.38 lbs (3.8kg)
- Cutout: 10.3" (261.5mm)
- Diameter 11.3" (284mm)
- Depth 8.6" (219.5mm)
- Power Handling: 5-120W
- Impedance: 8Ω
- Installed Frequency Response: 38 Hz - 22 kHz
- Sensitivity: 90db
- Grille: Magnetic Bezelless; White - Paintable
- Connector Type: Gold Spring Push Terminal
- Optional Pre-construction Bracket: EZBracket Size: B
